EDUCATION

University of Kelaniya

Kelaniya, Sri Lanka

BSc (Hons) in Software Engineering

Expected Graduation: April 2029

- **Current GPA: (3.30 / 4.00)**
- **Relevant Coursework:** Data Structures and Algorithms, Object-Oriented Programming, Problem Solving, Databases, Web Development.
- **Certifications & Courses:** Microsoft Learn, AWS Cloud Practitioner, Oxford Online English, Python & Java Advanced (Udemy), Programming Course – Advanced Python & Web Design (University of Moratuwa).

H/Rajapaksa National College

Weeraketiya, Sri Lanka

G.C.E. Advanced Level – Physical Science Stream

2024

- Combined Mathematics: A | Physics: B | Chemistry: B

PROJECT EXPERIENCE

HealthPulse AI - Full-Stack Mobile & Web Companion | *React, Node.js, Express, MongoDB*

Oct 2026

- Developed a Cloud-Native Trilingual Health & Wellness Platform featuring real-time BMI tracking analytics and symptom-driven smart doctor recommendations.
- Built a secure backend with Node.js and MongoDB for persistent health vitals logging inside an interactive mobile frame.

AstroPulse-AIOps Observability Gateway | *Python, Ballerina, React, Claude AI*

Sep 2026

- Engineered a Cloud-Native Integration Gateway leveraging Ballerina and Python to streamline and monitor microservice telemetry logs in real-time.
- Integrated Claude AI to analyze system anomalies and generate automated Root Cause Analysis (RCA), significantly reducing troubleshooting time for cloud architectures.

Vehicle-Spare-Parts Management System | *PHP, MySQL, JavaScript, HTML5, CSS3*

Aug 2026 – Sep 2026

- Developed a full-stack E-Commerce and Management System built to streamline inventory, product cataloging, and order fulfillment processes.
- Designed a robust relational database schema using MySQL to handle real-time tracking of spare parts and manage customer transactions efficiently.

Sri Setha Astrology App | *JavaScript, HTML, CSS*

Dec 2025 – Jun 2026

- Built a modern astrology website featuring live horoscopes, service booking, WhatsApp integration and a mobile-friendly design.
- Implemented auto-updating predictions, an interactive zodiac slider, and contact forms, running entirely in the browser with no backend.

NexaTask Modern Task Management Platform | *React, Node.js, Express, MongoDB, JWT*

Mar 2026 – Apr 2026

- Designed and launched a responsive full-stack task management web application featuring a modern glassmorphism UI to enhance user experience.
- Implemented secure JWT authentication, real-time search, priority-based sorting and dynamic dashboard analytics.

VisionScope AI | *Python, Flask, OpenCV, MediaPipe, React.js*

Feb 2026 – Mar 2026

- Developed an AI-powered real-time human feature detection application with precise face and eye tracking capabilities to ensure driver safety.
- Implemented machine learning models using OpenCV and MediaPipe for continuous webcam analysis and driver drowsiness detection.

LEADERSHIP & INVOLVEMENT

IEEE Sri Lanka Section | *Student Member (ID: 102613884)*

Aug 2026 – Present

- Participate actively in national technical workshops and networking sessions, engaging with industry professionals and adapting to emerging global tech standards.

Gavel Club, University of Kelaniya | *Coordinator*

2023 – Present

- Coordinate weekly skill-development events and public speaking sessions for undergraduates, improving communication and leadership capabilities.

LED KLN | *Active Member (Registration No: 263092)*

Jun 2026 – Present

- Collaborate with cross-functional student teams to execute university-wide initiatives, fostering continuous learning and innovative problem-solving.

❖ Junior Hack 7.0 | *Participant*

2025 | University of Kelaniya

❖ Paramount 5.0

2025 | Department of Mathematics, University of Kelaniya

SKILLS & INTERESTS

- **Programming Languages:** Java, Python, JavaScript, Ballerina, PHP, C
- **Frontend Technologies:** React.js, HTML5, CSS3, Tailwind CSS
- **Backend & Databases:** Node.js, Express, Flask, MongoDB, MySQL
- **Tools & Platforms:** Git, GitHub, VS Code
- **Specialized Areas:** Artificial Intelligence, Machine Learning, Full-Stack Development, UI/UX Design
